Introduction

TODO: Give a short introduction of your project. Let this section explain the objectives or the motivation behind this project.

Getting Started

TODO: Guide users through getting your code up and running on their own system. In this section you can talk about:

1. Installation process
2. Software dependencies
3. Latest releases
4. API references

Build and Test

TODO: Describe and show how to build your code and run the tests.

Contribute

TODO: Explain how other users and developers can contribute to make your code better.

If you want to learn more about creating good readme files then refer the following [guidelines](#). You can also seek inspiration from the below readme files:

- [ASP.NET Core](#)
- [Visual Studio Code](#)
- [Chakra Core](#)

The screenshot shows the Azure DevOps Pipelines interface. On the left, the sidebar includes options like Overview, Boards, Repos, Pipelines (selected), Environments, Releases, Library, Task groups, Deployment groups, Test Plans, and Artifacts. The main area displays 'All pipelines > New release pipeline (3)'. A sub-menu for 'Stage 1' shows an 'Agent job' task with the label 'Run on agent'. The right side is a 'Create a new release' dialog for a 'New release pipeline (3)'. It contains sections for 'Pipeline' (with a note about trigger change), 'Artifacts' (selecting 'jajaticarwala' as source alias and version 10), and 'Release description'. The pipeline configuration on the left has a 'Task version' set to '4.\*'.
